

SAMEDI 30 JUIN 2018 : le GRAND BALLON au programme.

8 h au pied de l'église, nous sommes plus de 20 adhérents présents pour une sortie à la journée avec au programme le Vieil Armand et le Grand Ballon.

La météo est carrément splendide, et qu'est-ce qu'il fait bon rouler le matin avec les premiers rayons de soleil, dans un ciel totalement bleu azur. Nous respirons des parfums de toutes sortes issues de la nature, nous ne sommes pas trop gênés par les voitures.

La progression du groupe principal est homogène jusqu'au pied du Vieil Armand. Dès les premiers mètres du col, chacun monte à son rythme. Nous serons 3 à ne pas affronter le Grand Ballon.

Le retour par Golbach, Thann, les 3 bosses s'effectue « groupiert ». Mais les premiers signes de fatigue apparaissent pour certains.

Heureusement, le bar-restaurant de la Seigneurie n'est plus très loin.

Nous retrouvons nos amis du groupe 3 qui avaient au programme le Hundsrück par la route forestière.

Une bonne pression ou autre boisson, une barquette de frites, une seconde pression ou autre, et les organismes sont requinqués.

Nous rentrons tous ensemble, satisfaits de cette belle sortie.

Aucun incident mécanique, aucune crevaison. Quelques 120 kilomètres au compteur.

Et quelques photos en souvenir de cette journée.

Le Président

Noël GUINCHARD

the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million (FAO 2001).

There are a number of reasons for this increase. One of the main reasons is the increase in the world population. The world population is expected to reach 8 billion by the year 2025 (UN 2000). This increase in population is putting a strain on the world's food resources.

Another reason for the increase in undernourishment is the increase in the number of people who are living in poverty. In 1990, 1.2 billion people were living on less than \$1 a day. By 2000, this number had increased to 1.6 billion (World Bank 2000).
